Lahore

## Profile

I'm Usama. An individual with strong logics and ability to handle scalable strategies. I always inclined towards acquiring new skills and upgrading the previous knowledge. It was my passion for programming that took me here in such a short period of time.

## Experience

2021 - Present  
Securehops

### Laravel Developer

As I was confident with the frontend in Flutter. I opted laravel for backend. I worked on a swedish project called Gagnat and wrote its entire backend.

2021 Jan  
TechStep

### Flutter Course

I decided to enroll my self in a Flutter course when I came to know that It covers 6 platform with single code base. It went pretty well. After completion I created a real estate project to manage properties
